JOHN SCHUYLER

Beneath the surface

Inspired by American painters Jackson Pollock and Mark Rothko, third-generation abstract expressionist John Schuyler explores dimension and depth, layering with texture. His use of scraffito technique produces deep and luminescent colors that heighten the effect of his composition, urging viewers to run a hand over the surface of his painting.

Schuyler will be debuting new mixed-media abstract works in a show

titled *Beneath the Surface* at RVS Fine Art. Comprised mostly of his *Cambiare* series, Schuyler uses a palette of whites, the beginning and end of all colors, to focus on the fundamentals of light and space.

“The biggest difference is my approach,” says Schuyler. “Rather than undertake each painting with a predetermined idea of the outcome, I’ve started to let the pieces unfold on its own

and, as a result, the work has come to me a lot easier lately.”

Schuyler says he has experienced an epiphany in letting the process guide him in revealing the painting, rather than “painting” the painting.

“I decided to title my newest suite of paintings as the Italian term for ‘change,’ *Cambiare*, in acknowledgement of this shift in concepts,” adds Schuyler.

The Gallery Says . . .
"Combining a technical mastery of a complex array of media with a unique sensitivity to color, John Schuyler's elegant modern-day frescoes stand as memorials to themes both universal and eternal."

"immediate, day-to-day environment," Schuyler's studio is designed for isolation, promoting serenity and concentration. He hopes this soothing sense of calm and control translates into his new work.

"Ultimately and ideally, I hope each viewer takes away his or her own strong feeling from my work and that the pieces somehow resonate on an unconscious level with them," says Schuyler. ●
